MEMORANDUM FOR: Deputy Director for Support

SUBJECT : New Legislation

1. This memorandum, in paragraph 4, recommends action by the Deputy Director for Support.

2. Proposed, but not enacted, HR 12861, 89th Congress, 2nd Session, a copy of which is attached, would have permitted the General Services Administration to acquire, construct and maintain parking facilities for use by Government employees. As you know, this subject is of intense interest to the Agency at this time as an increasing number of our employees are now in areas removed from Headquarters Building, areas where the only parking available is commercial parking. The attached Bill would represent a very desirable advance in existing Government policy on employees' entitlements to parking facilities.

3. We continue to receive inquiries, usually in the form of Employee Suggestions, asking why the Agency is unable to provide protective work clothing. The basic reason is that while Congress has passed general legislation providing that appropriations shall be available for the purchase and maintenance of special clothing and equipment for the protection of personnel, the Comptroller General has ruled specifically that such furnishings may not be purchased unless there is specific authorization contained in the appropriation involved. The Congress to date has not given this authorization to the Agency.

4. It is recommended that the Legislative Counsel be requested to:

a. Indicate our interest in the passage of a bill similar to HR 12861, 89th Congress.

b. Initiate action to amend the CIA Act of 1949 by specifically authorizing the Director to purchase and issue protective clothing as indicated.

Signed: George E. Meloon

Reference the correspondence at Attachment 1, and in accordance with instructions from the D/L, the chiefs of OL Divisions were queried for proposed legislative matters. All were negative except RE&CD, which proposals are at Attachment 2.

2 Atts

See HR 12861 introduced 16 Feb 1966, 89th Cong, 2d Session by Mr. Brophy - "To authorize the administrator of General Services to acquire, construct, and maintain certain parking facilities." It was referred to Committee on Public Works and died there. Idea was to equalize parking throughout govt by charging nominal fees to all etc attached.
